

BINUK PINSARA

Software Engineering Undergraduate

ABOUT ME

I am a BSc (Hons) in Information Technology specializing in Software Engineering undergraduate at the Sri Lanka Institute of Information Technology, seeking an opportunity to apply my technical knowledge and problem-solving skills in a professional environment. Passionate about software development, I am eager to contribute to real world projects while continuously learning and developing my skills in modern technologies.

PROJECTS

ScanMark (QR Based Student Attendance Management System) [Jan 2026 - May 2026]

Technologies: React, Spring Boot, React Native (Expo), MongoDB Atlas

- Collaborated on a university group project to develop a full stack student attendance management system using QR-based attendance tracking.
- Developed the real time notification management module, enabling reliable communication and timely updates for students and lecturers.
- Contributed to integrating the frontend, backend, and database to support live session monitoring and attendance management.

BoardMate (Location-Aware Accommodation Marketplace) [June 2026 - July 2026]

Team of 2 | Technologies: React Native (Expo), Node.js, Express.js, MongoDB, Socket.io, Tailwind CSS

- Developed a full stack mobile marketplace connecting students with boarding owners through location based property discovery.
- Implemented geospatial search and proximity based filtering to help users find nearby accommodation.
- Integrated real time chat using Socket.io and SMS OTP authentication for secure user communication and verification.

HireNear (Location-Aware Freelance Marketplace) [Apr 2026 - May 2026]

Team of 6 | Technologies: React Native (Expo), Node.js, Express.js, MongoDB, Socket.io, React.js, Tailwind CSS

- Collaborated in a 6 member team to develop a full stack mobile freelance marketplace connecting clients with local service providers.
- Implemented location based service discovery and freelance matching to help users find nearby workers.
- Developed real time chat using Socket.io, enabling direct communication between clients and freelancers.

SOFT SKILLS

- Team work
- Project & Time Management
- Leadership
- Problem Solving
- Critical Thinking

TECHNICAL SKILLS

- Java, JavaScript, TypeScript, Hono, Node.js, Express.js
- React, Spring, Expo, Servlets, HTML, Vite, Astro, CSS
- MongoDB, Microsoft SQL, MySQL
- Vercel, Render, Railway, Firebase, CloudFlare

LANGUAGES

- English
- Sinhala

CERTIFICATIONS

Python for Beginners

- University of Moratuwa (Dec 2025)
- ID: xVXxqh8jp7

Prompt Engineering 101

- KodeKloud (Jul 2026)
- ID: 8ccd631b-3c89-4174-bf08-4417e87499bd

Introduction to Cybersecurity

- Cisco Networking Academy
(In Progress)

ViteLoom (Digital Wedding Management System)

<https://viteloom.com/>

[June 2026 - July 2026]

Team of 2 | Technologies: React, TypeScript, Hono

- Co-developed a full stack digital wedding management platform that provides modern tools for planning and managing wedding events.
- Developed custom digital wedding invitations with personalized templates and event information.
- Implemented an interactive digital seating management system and wedding agenda to help guests navigate the event.
- Developed a live wedding gallery for sharing and viewing event photos in real time.

EDUCATION

Sri Lanka Institute of Information Technology (SLIIT)

BSc (Hons) in Information Technology Specializing in Software Engineering

Mar 2024 – Present | 3rd Year Undergraduate

- Currently pursuing a degree specializing in Software Engineering, with a strong focus on software development and engineering principles.
- Developing practical knowledge in full stack development, software architecture, databases, cloud technologies, and modern development frameworks.
- Gaining hands on experience through individual and collaborative software projects.

H/Ruhunu Vijayaba National College

G.C.E. Advanced Level – Physical Science Stream

Mar 2021 – Jan 2024

Combined Mathematics - B Chemistry - C Physics - S

- Developed strong foundations in mathematics, logical reasoning, analytical thinking, and problem solving.
- Built the mathematical and scientific foundation necessary for pursuing higher education in Information Technology and Software Engineering.

H/Ruhunu Vijayaba National College

G.C.E. Ordinary Level

Jan 2015 – Mar 2021

6 A's (Including Mathematics & Science) 1 B 2 C's

- Demonstrated strong academic performance across core subjects, particularly Mathematics and Science.
- Developed early foundations in logical thinking, analytical reasoning, and problem solving.
